Dear Board of Trustees for the Village of Patchogue:

As the Plaza MAC transitions into its next phase screening films out of 20 Terry Street, Suite #121, we have come under review of the Suffolk County Department of Health Services, requiring us to apply for the minimum Staff Vending Requirements, which means installing a hand sink with an ejector pump in the corner of our concessions area. We have been approved by the Department of Health Services providing we get a hand sink installed as planned, and approved by Peter Sarich and installed by local plumber Jim Krug of Brookhaven Energy Systems. This letter is requesting a waiver of the fee for this permit as we are a not-for-profit 501 (c) 3 Cinema Art Center operating out of the Artspace complex.

Thank you for considering this request.

Campbell Dalglish,

President Plaza MAC

<p>PROPOSAL TO INSTALL HAND SINK IN COUNTERTOP. PIPE HOT AND COLD WATER TO FAUCET AND INSTALL AND PIPE AN UNDER COUNTER EJECTION SYSTEM FOR THE DRAIN, WHICH WILL TIE INTO A 3" WASTE LINE AND A 3" VENT LINE. WE WILL HAVE TO CUT HOLES IN THE BATHROOM FOR ACCESS TO INSTALLING THE PIPING ABOVE THE BATHROOM CEILING AND IN THE WALL. WE ARE NOT RESPONSIBLE FOR REPAIRING THESE HOLES. IN ADDITION, WE NEED TO KNOW THE LOCATION OF ISOLATION VALVES FOR WORKING ON THE HOT AND COLD WATER LINES. THERE MAY BE A PROBLEM GETTING ALL PIPING IN THE SAME CHASE SINCE THERE ARE SEVERAL THINGS IN THE WAY. WE WILL INSTALL ISOLATION VALVES IN THE CEILING FOR THE WATER LINES TO THE SINK. WE WILL SUPPLY THE TRAP AND DRAIN FOR THE SINK. SINCE WE ARE LIMITED BY THE AMOUNT OF TIME THAT WE CAN WORK THERE, SEVERAL TRIPS MAY BE NECESSARY. THE SINK, FAUCET, AND THE EJECTION SYSTEM ARE SUPPLIED BY OTHERS. QUOTED PRICING INCLUDING HOT AND COLD WATER LINES, ISOLATION VALVES, LAVATORY SUPPLIES, SINK DRAIN AND TRAP, ALL DRAIN AND DISCHARGE PIPING AND VENTING OF UNDER SINK EJECTION SYSTEM,</p>		985.00	985.00
